IMPACT IN ACTION

Duck Creek Technologies - Digital Signage in Action

At Duck Creek's annual conference, 82 South transformed the partner experience by installing a series of branded LED walls across 52 partner booths, creating a unified and elevated visual impact throughout the show floor.

To take things further, we deployed **24 XPCANVAS** digital signs, giving individual exhibitors a dynamic platform to showcase their own content, messaging, and brand identity in real time. This seamless integration of personalized signage and cohesive visual branding dramatically improved partner visibility, engagement, and storytelling.

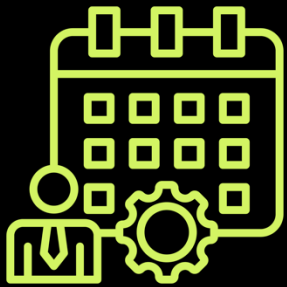

The result?

- 95% partner satisfaction
- Increased booth traffic and content recall
- Glowing feedback from both attendees and organizers

This activation is a standout example of how smart digital signage can elevate partner presence, enhance the attendee experience, and deliver measurable value.

BEYOND THE SIGNAGE

As a true turnkey partner, we offer a full suite of services to simplify your event planning, amplify your brand, and deliver a seamless experience — from idea to execution.

Event Design & Production

Strategic event environments designed to inspire, engage, and deliver impact.

Content & Media Production

Visual storytelling via video, motion graphics, and digital content.

Exhibit Design & Production

Custom exhibits and branded environments from concept to install.

Interactive Activations

Immersive experiences that invite engagement and spark connection.
